### SHORT COMMUNICATION

See *Nuytsia* 35: 141–198 (2024), <https://doi.org/10.58828/nuy01072>.

p. 171, Figure 14A. The voucher specimen for the seed of *Stylidium irriguum* should be corrected from *K. Coate* 372 to *K. Coate* 729.

p. 188. The phrase ‘stolen fragments and specimens’ should be amended to ‘fragments and specimens originating from other herbaria’. It was not our intention to cast aspersions on Allen Lowrie but to document the existence of type material in Herbarium Lowrieianum that had originated from BRI, K and PERTH. We unreservedly apologise for any distress that this has caused.
